Part I

Demonstration

1 Section

You can easily use the basic maths number sets $\mathbb{N}$, $\mathbb{Z}$, $\mathbb{Q}$, $\mathbb{R}$, $\mathbb{I}$, $\mathbb{C}$ by typing `\[letter]`.

`\separate{[space]}` adds space between paragraphs and removes indents.

When writing papers can easily create:

- **Definition 0.0.1:** Defining word here.
- **Example 0.0.1:** Example here.
- **Conjecture 0.0.1:** Conjecture here.
- **Custom Type 0.0.1:** Entry text here.
- *Proof:* Proof goes here (auto QED symbol $\rightarrow$).

□

- **Theorem 0.0.1:** Theorem here.

Proof: Proof here.

□

- **Lemma 0.0.1:** Lemma here.

Proof: Proof here.

□

Algorithm 1 Algorithm Caption

Input: The algorithm's input

Output: The algorithm's output

The algorithm's code
